

BUILDERS LEVEL · CAPSTONE

My Community Helper Website

Student Workbook

I can build a multi-page website that structures, styles, and shares real information.

Name: _____

THEORY

Putting It All Together — A Website

A **website** is many pages **linked** together with `<a>` tags. You will **structure** pages with HTML (`<h1>`, `<h2>`, `<p>`, lists, images), **style** them with CSS (color, font-size), write real content, and keep private info off the page. This capstone brings together all four semesters.

Talk with your teacher: Which community helper or cause will your website be about?

My website idea

Draw three ideas for a community helper or cause your website could feature.

1

draw here

2

draw here

3

draw here

Tags & blocks we use:

`<h1>` / `<h2>`

`<p>`

`<ul>` / `<li>`

`<img>`

`<a>` link

color / font-size (CSS)

Words we are learning

- **Website** — several pages linked together.
- **Link** — an `<a>` tag that moves the reader to another page.
- **Structure** — the HTML that builds the pages.
- **Style** — the CSS that sets colour and size.
- **Digital footprint** — keep private info off your public pages.

Name: _____ **Date:** _____

Choose My Helper

Pick a community helper or cause. Circle one, then draw who it is.

a firefighter

a food bank

a park clean-up

a library

my own idea

Name: _____ **Date:** _____

My Pages Plan

A website has several pages. Plan three: Home, About, and How to Help. Draw each.

1 draw here	2 draw here	3 draw here
-----------------------------------	-----------------------------------	-----------------------------------

Name: _____ Date: _____

Link Them Up

An `<a>` **link** connects pages. Match each link to the page it should open.

Home link	opens the Home page
About link	opens the About page
Help link	opens the How to Help page

Which tag makes a link?

`<a>` `<h1>`

Name: _____ **Date:** _____

Test & Present

Test your website. Tick each box when it is true.

- ☐ Every page has a heading (<h1> / <h2>)
- ☐ Pages are styled with CSS (color / font-size)
- ☐ The links move between pages
- ☐ The information is accurate and helpful
- ☐ No private information is shown

What I will say when I present my website:

Name: _____ Date: _____

PROJECT

My Community Helper Website — Plan

Your capstone is a multi-page website profiling a local helper or cause. Passing it graduates you to Developers.

1. My helper or cause:

2. My three pages — name and draw each:

1

draw here

2

draw here

3

draw here

3. Which tags and CSS will I use? (circle)

<h1>

<h2>

<p>

/

<a>

color

font-size
