

BUILDERS LEVEL · SEMESTER 1

All About Me Page

Student Workbook

A web page is built from tags — and what we share online is our digital footprint.

Name: _____

THEORY

A Web Page Is Built From Tags

Web pages are written in **HTML**. HTML uses **tags** — labelled boxes written inside `<` and `>`. `<h1>` makes a big **heading**. `<p>` makes a **paragraph**. `<img>` adds a **picture**. Almost every tag **opens** and **closes**: `<p> ... </p>`.

Read with your teacher: What is safe to share on a page about you — and what should stay private?

Label the page parts

Draw a page about a pet. Put a heading at the top, a paragraph in the middle, and a picture — in that order.

Tags & blocks we use:

`<h1>` title
`</h1>` close
`<p>` paragraph
`</p>` close
`<img>` picture
`<body>`

Words we are learning

- **Tag** — a labelled instruction in HTML, written inside `<` and `>`.
- **Heading** — a big title made with `<h1>`.
- **Paragraph** — a block of sentences made with `<p>`.
- **Image** — a picture added with `<img>`.
- **Digital footprint** — the trail you leave online; keep private things private.

Name: _____ Date: _____

Meet The Tags

Each HTML **tag** has a job. Draw a line from each tag to what it makes.

<h1>	a big heading (page title)
<p>	a paragraph of sentences
	a picture on the page

Circle the tag that makes a big title:

<h1>

<p>

Name: _____ Date: _____

Open And Close

Most tags **open** and then **close**. The close tag adds a slash: `</p>`. Write the missing closing tag on each line.

`<h1>` My Page _____

`<p>` I like soccer. _____

Write the closing tag for `<h1>`:

Write the closing tag for `<p>`:

Name: _____ Date: _____

Plan My Page

Good pages are built in **order**. Draw your page layout: heading first, paragraph next, picture last.

1 draw here	2 draw here	3 draw here
---	---	--

Name: _____ Date: _____

Safe To Share

Everything you post becomes your **digital footprint**. Draw a line to the right box.

My favourite colour	Okay to share
My home address	Keep private
A hobby I enjoy	Okay to share
My school and grade only	Keep private

If someone online asks for private information, tell a trusted adult.

Name: _____ Date: _____

PROJECT

All About Me Page — Plan

You will build your first web page about yourself using HTML tags. Plan it here first — and keep private info private.

1. My heading (<h1>) — the title of my page:

2. My paragraph (<p>) — two safe sentences about me:

3. My picture () — draw what it shows:

4. Which tags will I use? (circle)

☐ <h1> ☐ <p> ☐ ☐ <body>
