Save the Bees Awareness Site

Student Workbook

Code can persuade people to help a cause.

Name: _____

THEORY

Pages That Persuade

A **persuasive** page helps people care about a **cause**. It grabs attention with a strong **headline** (`<h1>`), gives **reasons** (facts) in paragraphs, and ends with a **call to action** that asks the reader to help. Bold **CSS** colours and a big **font-size** make it powerful.

Talk with your teacher: Why do bees matter, and what could a reader do to help them?

Grab attention

Write two headlines about saving bees. Circle the one that grabs attention more.

Words we are learning

- **Persuade** — to help someone want to act.
- **Cause** — something important you want to help, like saving bees.
- **Headline** — a strong title that grabs attention (`<h1>`).
- **Reason** — a fact that shows why the cause matters.
- **Call to action** — words that ask the reader to do something.

Strong Headlines

A **headline** grabs attention. Circle the stronger headline, then write your own.

Some information about bees

Bees Need Our Help Now!

My bee headline (<h1>):

Name: _____ **Date:** _____

Give Reasons

A persuasive page gives **reasons**. Write three reasons bees matter.

Reason 1:

Reason 2:

Reason 3:

Name: _____ Date: _____

Call To Action

A **call to action** asks the reader to help. Match each cause to a good call to action.

Save the bees	Plant flowers bees love!
Protect the ocean	Say no to single-use plastic!
Help the library	Return your books on time!

Circle the strongest call to action for bees:

Plant bee-friendly flowers!
